Blend resilience and softness

Inspired by the drawn line, RAUVISIO shade's solid-extruded surface offers unbound soft resilience.

na.rehau.com/shade

By diffusing light and giving elements around it vivid definition, RAUVISIO shade™ super-matte PET surface unveils a space as a work of art. Its powdery finish makes its mark as a far-reaching surface area. Allow soft to recede to the background or define the foreground of your boutique, reception or workspace. Whatever your focus, bring your subject into light.

Features & benefits

- Soft touch finish
- Scratch, fingerprint and bacteria resistant
- Excimer lacquering for increased durability
- Superior UV stability
- Low light reflectivity
- Value-engineered option for large commercial projects

Marking our present.

Human expression began with line. Our need for expression is essential to give meaning to our lives. This desire to capture the world around us and record it with whatever means available gave birth to drawing, painting, writing, photography and what we now regard as high art. By marking our present, we saved it for all posterity and so, today, as we look at man's earliest drawings we see not just the bison, but our stance in the hierarchy of the natural world at that time. This powdery line, deliberately sensitive and full bodied proclaimed to invisible audiences "I am here."

Shades to draw out the light.

This palette of neutral hues allows you to soften your living space and place an emphasis on the elements that matter to you most. Choose a hue that's already a classic.

Black 154418

Lines that define us.

Our history is bound in line. Drawing gradually gave way to the documentation of language, music and science making the exchange of culture and ideas accessible to all. These deliberate marks recorded the challenges, discoveries and beliefs of everyday life. This line, initially created to make a boundary became a release for human intellect.

White 154419

Strokes with depth.

As drawing evolved from a means of expression and pastime to a way of delivering essential information, the techniques used to achieve different kinds of line surfaced. Its increased popularity led to the mastery of mediums such as chalk, charcoal and graphite. This advanced line was softer, contained more depth and made its subjects look like they stepped out of the shade into the light.

Light Grey 154420

Unbound shades.

This new blurred and shaded line broke conventions of the past. Notions of line as something that contained, restricted and bound were replaced by an invisible line whose hints created faint color hues. These new techniques inspired poets and writers to challenge their binary notions and reinvent a third way, a more ambiguous way that was truer to real life. These soft and hazy undertones made what laid on top more vibrant. It gave an intimate feeling, brought out a warmth in its subjects that created a striking real-life effect. This concept plays out when RAUVISIO shade brings an augmented softness to your designs, going beyond boundary, diffusing light, giving the elements around it vivid definition.

Dark Grey 154421

Textured with purpose.

RAUVISIO shade, as its name suggests, is a texture that not only softens your space visually but also literally. Its powdery finish vanishes when touched to create an experience that is especially satisfying. Its delicate surface feels beautifully muted to allow for an overall elegant look and feel. RAUVISIO shade helps you craft spaces that look like works of art.

Stone Grey 154422

High design meets high quality.

Soft texture doesn't mean soft quality. RAUVISIO shade is a durable surface, making it ideal for vertical commercial applications or larger scale projects. Meant for areas that get a lot of wear and traffic, the features of this surface retain their hue and lure. Its soft powdery finish ensures your space looks hardly touched by everyday use.

Make your mark in any space.

Blend unexpected elements for your boutique, reception or lobby effortlessly. Allow for soft to enter your workspace, closet or mudroom and create mixed-material spaces where RAUVISIO shade can recede to the background or enrapture the foreground. Whatever your focus, let us bring out the line and light.

RAUVISIO shade technical information

The solid-extruded RAUVISIO shade super-matte PET surface offers superior durability with a thickness 4 to 5 times that of clear PET film or lacquered melamine. Its UV-cured excimer lacquer provides low-light reflectivity, impact and fingerprint resistance and a soft super-matte finish. RAUVISIO shade is laminated to an MDF core that is CARB2, TSCA Title VI certified. Offered as boards and edgeband or fabricated panels and cabinet doors with perfectly matched REHAU LaserEdge™, this surface brings unbound soft resilience to your project.

Board specifications

RAUVISIO shade is laminated to a high quality, super-refined, engineered MDF core that is CARB2, TSCA Title VI certified which provides a stable, consistent substrate and virtually eliminates warping.

Edgeband specifications

All components are edgebanded with REHAU LaserEdge, which provides an extremely heat and moisture resistant seamless joint rivaling solid surfaces.

Cleaning and care

Clean with a damp microfiber cloth and mild soap if needed. While the surface is scratch resistant, it should never be dry-wiped. Avoid abrasive cleaners, solvent-based cleaners and harsh chemicals. Do not use paper towels, brushes or scouring pads. REHAU is not responsible for any damage done by abrasive cleaning products or procedures.

Protective coat

A protective peel coat is applied to the top of the matte surface. Do not expose peel coat to direct sunlight before removal. Remove promptly after installing cabinet but prior to mounting decorative hardware. To remove peel coat, use rubber fingertips or our peel coat removal tool.

Profile specifications

Appearance	Matte
Door style	Slab and shaker
Design style	Modern, contemporary
Construction	Colored PET film laminated to MDF core, REHAU LaserEdge
Shaker stiles and rails	3 in (76.2 mm), custom widths also available
Face material	PET film, multiple colors
Back material	Melamine, matching color
Edgeband	REHAU LaserEdge, matching color
Core	Super-refined MDF
Board thickness	3/4 in (19.5 mm)

Cabinet door size parameters

Minimum slab	3 x 5 in (76.2 x 127 mm)
Maximum slab	47 x 109 in (1193.8 x 2768.6 mm)
Minimum shaker	8-7/8 in W x 11 in H (225.4 mm W x 279.4 mm H)
Maximum shaker	30 in W x 65 in H (762 mm W x 1651 mm H)

Edgebanding profile

Top edge	1.0 mm radius
Bottom edge	1.0 mm radius
Edgeband finish	Elegant matte, color matched

Slab profile**Shaker profile**
