

**Engineering progress
Enhancing lives**

We pay attention to details just like you.

Entrust us with your unfinished edges. Decades of perfecting our craft in polymers, pigments and print wheels have earned REHAU the reputation of the best surface-to-edge matchmaker in the industry.

Whether it's the thousands of edgeband colors in multiple formulations we have in stock or something custom made for you, make a match that will last the entirety of its surfaced life.

Why REHAU edgeband?

Best surface-to-edge matchmaker in the industry.

Freedom to choose from the largest selection of sizes and materials.

Innovating to solve issues at the edge, one roll at a time.

Edgeband is personal for us:

It's our people, some who've been laying eyes on edgeband matches for 20 years, and our attention to detail that uphold our reputation day in and day out. REHAU edgeband is delivered with an imperceptible color difference of less than 1 Delta E, whether the material is PVC, PP, PMMA or ABS. Their color stability and material resilience ensures they will age as gracefully as your millwork and cabinets. Innovating edging, whether in production plant or in the warehouse, is our business.

Say Goodbye to glue pots and glue lines with our REHAU LaserEdge™ zero-joint technology. Take curves with ease using REHAU FlexEdge® semi-rigid edging. Find anything you need, whenever you want, in whatever length among the 10,000 SKUs at the REHAU Marketplace. With so much going on at the shop, leave the details of edging to us.
